Summary

MERN stack developer and CS undergraduate with **800+ DSA problems solved** and experience building full-stack and ML applications. Skilled in scalable web systems, machine learning, and AI-driven products.

Skills

Languages: C++, Python, JavaScript
Web: React.js, Next.js, Node.js, Express.js
Databases: SQL, PostgreSQL, MongoDB
Machine Learning: NumPy, Pandas, Matplotlib, Scikit-learn
AI/LLM: LangChain, Mistral AI, Gemini API, Tavily API
Tools: Git, GitHub, Postman, FastAPI, Drizzle ORM
Core CS: Data Structures & Algorithms, OOPs, DBMS, SQL

Education

National Institute of Engineering (NIE), Mysore, Karnataka — **2023 – 2027**
Bachelor of Technology (B.Tech) in Computer Science — *CGPA: 8.74*

NCA Sr. Sec. School — **2021 – 2022**
Class XII (CBSE) — *Percentage: 89.8%*

Projects

RecruitAI – AI Voice Interviewer — GitHub

- Built an AI-powered recruitment SaaS using **Next.js, React, and Tailwind CSS** to automate candidate screening through voice-based interviews.
- Integrated **Mistral AI** for adaptive question generation and candidate evaluation, with **Murf AI** and Web Speech API for voice interaction.
- Implemented **Clerk authentication, Neon PostgreSQL, and Drizzle ORM** for recruiter data management, and integrated **Resend** for automated interview invitations.

Multi-Agent AI Research Assistant — GitHub

- Built a **multi-agent research pipeline** using LangChain and Gemini API to automate web research, webpage reading, report generation, and quality review.
- Integrated **Tavily API**, Requests, and Beautiful Soup to search the web, extract webpage content, and preserve source URLs.
- Developed writer and critic components using **LangChain Runnables** to generate structured Markdown reports, evaluate report quality, and provide actionable feedback.

Cricket Score Prediction System — GitHub

- Developed an IPL score prediction system using **Python, Pandas, and Scikit-learn** to estimate final innings scores from match conditions.
- Engineered features including **run rate, remaining overs, wickets in hand, projected score, and pressure factor**.
- Trained a **GradientBoostingRegressor** (R^2 **= 0.79**, **MAE = 14.62**) and built a **Streamlit application** for interactive predictions and score visualization.

Leadership Skills

Tech Core Member — The BYTE Club, NIE Mysore — **Sept 2024 – Feb 2026**

- Organized **3 technical events** for **250+ students**, promoting technical learning and collaborative skill development.

Achievements & Certifications

- Solved **800+ DSA problems** across LeetCode and GeeksforGeeks.
- Participated in **7–8 hackathons**, including Smart India Hackathon and DevJams, building web and AI-based solutions.
